 This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36. 					
2. This REPORT consists of	2. This REPORT consists of a total of 3 sheets, including this cover sheet.				
This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).					
These annexes consist of a	a total of sheets.				
3. This report contains indica	ations relating to the following	items:			
I Basis of the rep	ort				
II Priority					
III Non-establishm	ent of report with regard to nov	elty, inventive	step and industrial applicability		
IV Lack of unity o	f invention				
V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement					
VI Certain docume					
VII Certain defects in the international application					
VIII Certain observations on the international application					
Date of submission of the demand	Date	of completion	of this report

	I. Basis of the report					
1.	With	Vith regard to the elements of the international application:*				
	\mathbb{A}	the international application as originally filed.				
	M	the description:				
		pages 1-167 as originally filed				
		pages NONE , filed with the demand pages NONE , filed with the letter of				
	ļΩ	the claims:				
		pages 168-189 , as originally filed				
		pages NONE , as amended (together with any statement) under Article 19 pages NONE , filed with the demand				
		pages NONE , filed with the letter of				
		the drawings:				
		pages NONE , as originally filed				
		pages NONE , filed with the demand				
		pages NONE , filed with the letter of				
		the sequence listing part of the description:				
		pages NONE , as originally filed				
		pages NONE , filed with the demand				
		pages NONE , filed with the letter of				
2.	With	regard to the language, all the elements marked above were available or furnished to this Authority in the				
	langi	uage in which the international application was filed, unless otherwise indicated under this item				
	Thes	te elements were available or furnished to this Authority in the following language which is:				
	Ш	the language of a translation furnished for the purposes of international search (under Rule23.1(b)).				
	\square	the language of publication of the international application (under Rule 48.3(b)).				
	П	the language of the translation furnished for the purposes of international preliminary examination(under Rules				
		55.2 and/or 55.3).				
3.	With	regard to any nucleotide and/or amino acid sequence disclosed in the international application, the				
	inter	national preliminary examination was carried out on the basis of the sequence listing:				
	Ц	contained in the international application in printed form.				
	Ц	filed together with the international application in computer readable form.				
	Ц	furnished subsequently to this Authority in written form.				
	닏	furnished subsequently to this Authority in computer readable form.				
	Ш	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the				
	_	international application as filed has been furnished.				
		The statement that the information recorded in computer readable form is identical to the written sequence listing				
		has been furnished.				
4.		The amendments have, suited in the cancellation of:				
		the description, pages NONE				
		the claims, Nos. NONE				
		the drawings, sheets/fig NONE				
5.						
(beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**					
* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). ** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.						

Form PCT/IPEA/409 (Box I) (July 1998)

International application No PCT/US03/10737

v.	Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
1.	STATEMENT				
	Novelty (N)	Claims	5-12 and 14-28	YES	
	,	Claims	1-4 and 13	NO	
	Inventive Step (IS)	Claims	5-12 and 14-28	YES	
		Claims	1-4 and 13	NO	
	Industrial Applicability (IA)	Claims	1-28	YES	
	integral replications (iii)		NONE	NO	

2. CITATIONS AND EXPLANATIONS

Claims 1-4, 13 lack novelty under PCT Article 33(2) as being anticipated by US 4,332,810. The compounds of Examples 1-5 and the composition thereof, are encompassed by the instant claims.

Claims 1, 2, 13 lack novelty under PCT Article 33(2) as being anticipated by BELANGER et al. The compounds 6, 8 (page 2177) and 11, 15 (page 2178), and the composition thereof, are encompassed by the instant claims.

Claims 1, 2 lack novelty under PCT Article 33(2) as being anticipated by IDDON et al. The compounds 24, 25 (page 1085) are encompassed by the instant claims.

Claims 5-12, 14-28 meet the criteria set out in PCT Article 33(2)-(3), because the prior art only teaches R1 as hydroxy or methoxy, and does not teach or fairly suggest the instant compound wherein R1 is hydrogen, amino or halogen. The prior art only teaches the use of the compound for treating pain, and does not teach the use of the inventive compound for treating a protein kinase related disorder as recited in the instant.

Claims 1-28 meet the criteria set out in PCT Article 33(4), and thus find industrial applicability because the subject matter claimed can be made or used in the pharmaceutical industry in the treatment of a protein kinase related disorder.
